About Engineering Entrance Exams

In order to gain admission to IITs, the student needs to write an exam called JEE. This exam consists of two stages:

Stage1: JEE Main and Stage2: JEE Advanced. JEE Main is similar to the earlier AIEEE exam & JEE Advanced is similar to the earlier IIT-JEE.

Admission to IITs are done solely on the basis of the rank in JEE Advanced. JEE Main, XII Board marks and rank do not influence the admissions but are only used as an eligibility criteria. In XII Board, the students are expected to score 75% aggregate or be in the top 20 percentile of the board.

Admission for NITs & IIITs is expected to be purely on the basis of JEE Main performance. As in the case of IITs, XII Board does not influence the admissions but is only used as an eligibility criteria, which differs from college to college.

As per the recent developments, State Entrance Exam MHT-CET is going to continue in 2018 but the level of paper & syllabus will be similar to JEE Main. So although admissions to state colleges will be through MHT-CET exam, students aspiring to take admission here will have to study for JEE Main anyway.

Apart from JEE Main & JEE Advanced, another popular exam is BITSAT, through which admission to BITS Pilani, Goa & Hyderabad is decided. Unlike what most people believe, all the popular entrance exams like JEE Main, JEE Advanced etc including BITSAT are very similar in pattern, syllabus and difficulty level.

About Special Comprehensive Course

To succeed in prominent engineering entrance exams, one requires a thorough understanding of subjects: Physics, Chemistry & Mathematics, and the ability to solve unseen and new questions with accuracy and speed. As competition is getting tougher every year, the sooner a child starts his preparation the higher are the chances of succeeding in JEE.

Thus, at BT, we identify few outstanding students from our Foundation course and train them with 11th std batches while they are in 9th/10th std. These students can choose any one subject out of P/C/M and attend classes for that particular subject with 11th std students.

Many of the BT top rankers have benefited immensely with this course. To name a few, Omkar Thakoor (IIT-JEE AIR 11), Kalpesh Krishna (JEE-Ad AIR 93), & Sahil Agrawal (IIT-JEE AIR 176) are few toppers who had benefitted from this concept. Infact, all 3 of them cleared Physics Olympiad 1st round as well, with Omkar & Sahil clearing 2nd round also.

From the horse's mouth ...

While I was in 9th and 10th std, I was given the opportunity to study Physics with 11th and 12th std students respectively. This gave me a head start and helped me in qualifying Physics olympiad round 2 and a good score in JEE.

The course was a stepping stone from foundation to actual JEE preparation. I'm really grateful to Vaibhav sir to give me this opportunity. It helped me realize what JEE preparation involves and I was ready for 11th.

I believe in the phrase "early bird catches the prey" and this course has already helped me top the Times NIE exam in Pune city. I'm confident it will also benefit me immensely in my 10th board exams and later getting a good rank in JEE.

Arnhav Datar, topped Pune in Times NIE Think & Learn Challenge and won a cash prize of Rs 1 Lac. (Appearing for JEE in 2018)

Selection criteria for this Course

On the basis of their performance in B-Tests in Foundation course (best 3 out of 4), top 40 students from Foundation Basic course and top 20 students from Foundation Advanced course are short listed for this course. These students then have to undergo the process of written test & interview. Based on their performance, they are then informed about which category of batch (out of Wizards, COC, Champions) they can attend with 11th std students.

FAQs

Q1. When can I take the admission?

Ans. The result will be declared within 2 days of the exam. Admission has to be taken within 7 days of the declaration of the result.

Q2. What is the admission process?

Ans. After the student qualifies the entrance exam., he/she is required to fill up the enrolment form (with 2 recent color passport size photo) and pay the 1st instalment of fee of Rs. 55,000/-.

Q3. Do I need to join Foundation Adv / Adv plus course also if I am selected in this course?

Ans. Since in this course, you will be attending only 1 subject out of P/C/M, in order to maintain the continuity of the Foundation course, you should join the next level of Foundation course also. Both the courses would have different benefits. The fees for the Foundation Course is not included in this course.

Q4. If I am selected, Can I choose which subject to attend with 11th std batch?

Ans. Yes. Out of P/C/M, student can choose which subject he/she wants to attend with 11th std batch.

Q5. Can I take more than 2 subjects along with Std. XI?

Ans. Only very select top students from STD IX would be chosen to do 2 subjects out of 3 along with STD XI. They will do the remaining 1 subject in STD X. As a result they can join STD XII Wizard directly after STD X & will be able to save one full year for practice before the JEE Exam.

Q6. What is the duration of Special Comprehensive course and when does it begin?

Ans. The duration of the course is 3/4 years depending upon in which std student is joining this course. This course begins on 4th June 2018 (Monday).
